Subject Index to Volume 63

ADEQUATE WATER INTAKE
hydration status in the U.S. and Germany, S55–S62 (Jun)
ADIPOCYTES
fat mobilization from adipose tissue, 166–170 (May)
ADOLESCENTS
dairy intake, obesity, and metabolic health in children and adolescents, 71–80 (Mar)
AGE DETERMINATION
weekly iron and folic acid supplementation to reduce anemia among primary school children in Cambodia, S139–S145 (Dec)
AGING
good hydration in the elderly, S22–S29 (Jun)
ALLERGENICITY
allergenic proteins in soybean, 47–58 (Feb)
ANEMIA
community mobilization and social marketing to promote weekly iron-folic acid supplementation, S87–S94 (Dec)
government-industry partnership in weekly iron-folic acid supplementation, S116–S125 (Dec)
importance of pre-pregnancy and pregnancy iron, S65–S76 (Dec)
weekly iron and folic acid supplementation to reduce anemia among primary school children in Cambodia, S139–S145 (Dec)
weekly iron-folic acid supplementation for women of reproductive age, S77–S80 (Dec)
weekly iron-folic acid supplementation in reproductive age Filipino women, S109–S115 (Dec)
weekly iron-folic acid supplementation in reproductive age Vietnamese women, S95–S108 (Dec)
weekly iron-folic acid supplements to prevent anemia among Cambodian women, S126–S133 (Dec)
ANOREXIA NERVOSA
eating disorder in hemodialysis patient, 423–426 (Dec)
ANTICANCER
olive oil and chemoprevention of colorectal cancer, 374–386 (Nov)
ANTICARCINOGENIC AGENTS AND MECHANISMS
role of fruits and vegetables against radiation-induced cancer, 303–311 (Sep)
ANTICOAGULANT
vitamin K influence on anticoagulant therapy, 91–100 (Mar)
ANTIOXIDANT
olive oil and chemoprevention of colorectal cancer, 374–386 (Nov)
APOPTOSIS
vitamin E and prostate cancer, 247–251 (Jul)
ASCORBIC ACID AP-1
biological role of vitamin C in keratinocytes, 81–90 (Mar)

BLOOD GLUCOSE
gluconeogenic organs and the small intestine, 356–360 (Oct)
role of diet in blood glucose response, 126–131 (Apr)
BLOOD PRESSURE
blood pressure regulation and vegetarian diets, 1–8 (Jan)
BODY COMPOSITION
physical disability and obesity, 321–331 (Oct)
BODY WATER BALANCE
good hydration for work and exercise performance, S14–S21 (Jun)
BODY WATER NEEDS
human water needs, S30–S39 (Jun)
BONE
affect of calcium and exercise on the growing skeleton, 361–373 (Nov)
BONE MASS
calcium supplementation during childhood, 251–255 (Jul)
vitamin K and childhood bone health, 284–293 (Aug)
BRAIN
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
BRAIN FUNCTION
role of saccharides on brain function and cognitive performance, 409–418 (Dec)
BREASTFEEDING
maternal obesity and poor lactation, 352–355 (Oct)
maternal recall of breastfeeding practice, 103–110 (Apr)

mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
BREAST MILK
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
BULIMIA NERVOSA
eating disorder in hemodialysis patient, 423–426 (Dec)
B VITAMINS
homocysteine and osteoporotic fracture risk, 29–36 (Jan)

CALCIUM
dairy intake, obesity, and metabolic health in children and adolescents, 71–80 (Mar)
CALCIUM ABSORPTION
calcium supplementation during childhood, 251–255 (Jul)
CAMBODIA
weekly iron-folic acid supplement delivered with social marketing to Cambodian women, S134–S138 (Dec)
weekly iron-folic acid supplements to prevent anemia among Cambodian women, S126–S133 (Dec)
CANCER
benefits of soybean foods, 272–283 (Aug)
DNA methylation, genomic silencing, and links to nutrition and cancer, 183–195 (Jun)
lunasin for cancer-prevention, 16–21 (Jan)
CARBOHYDRATES
role of diet in blood glucose response, 126–131 (Apr)
CARDIOVASCULAR DISEASE
benefits of soybean foods, 272–283 (Aug)
fructose intake and its relation to obesity, 133–157 (May)
CARDIOVASCULAR HEALTH
chocolate and cardiovascular health, 427–430 (Dec)
CAROTENOID
dietary lutein and zeaxanthin, 59–64 (Feb)
CHELATION
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
CHILDREN
dairy intake, obesity, and metabolic health in children and adolescents, 71–80 (Mar)
nutrition trends of children's cookbooks, 347–351 (Oct)
vitamin K and childhood bone health, 284–293 (Aug)
CHOCOLATE
chocolate and cardiovascular health, 427–430 (Dec)
CHRONIC DISEASES
good hydration for prevention of chronic diseases, S2–S5 (Jun)
COCOA
chocolate and cardiovascular health, 427–430 (Dec)
COGNITION
role of saccharides on brain function and cognitive performance, 409–418 (Dec)
COGNITIVE FUNCTION
good hydration for day-to-day health, S6–S13 (Jun)
COGNITIVE PERFORMANCE
role of saccharides on brain function and cognitive performance, 409–418 (Dec)
COMMUNITY MOBILIZATION
weekly iron-folic acid supplementation in reproductive age Vietnamese women, S95–S108 (Dec)
weekly iron-folic acid supplements to prevent anemia among Cambodian women, S126–S133 (Dec)
COLORECTAL CANCER
olive oil and chemoprevention of colorectal cancer, 374–386 (Nov)
β-CONGLYCININ
allergenic proteins in soybean, 47–58 (Feb)
CONSUMER
health claims for foods, 256–264 (Jul)
COOKBOOKS
nutrition trends of children's cookbooks, 347–351 (Oct)
COOKED MEAT
human risk of carcinogenic heterocyclic amines from meat, 158–165 (May)
C-REACTIVE PROTEIN
effect of weight loss on a stable biomarker of inflammation, 22–28 (Jan)
CRITICAL CARE
role of glutamine in intensive care unit patients, 65–69 (Feb)
CRP
effect of weight loss on a stable biomarker of inflammation, 22–28 (Jan)
CYCLIC-AMP
fat mobilization from adipose tissue, 166–170 (May)

DAIRY
dairy intake, obesity, and metabolic health in children and adolescents, 71–80 (Mar)
DEHYDRATION
good hydration for work and exercise performance, S14–S21 (Jun)
good hydration in the elderly, S22–S29 (Jun)
DESNUTRIN
fat mobilization from adipose tissue, 166–170 (May)
DEVELOPING WORLD
aging, nutritional status, and infection in the developing world, 233–246 (Jul)

DIABETES
fructose intake and its relation to obesity, 133–157 (May)
DIET
blood pressure regulation and vegetarian diets, 1–8 (Jan)
role of diet in blood glucose response, 126–131 (Apr)
DIETARY CALCIUM
affect of calcium and exercise on the growing skeleton, 361–373 (Nov)
DIETARY DIVERSITY
diversity in Japanese dietary guidelines, 37 (Jan)
DIETARY PROTEIN
gender differences in amino acid use during endurance exercise, 419–422 (Dec)
DIETARY REFERENCE INTAKES
dietary reference intakes for group diets, 267–271 (Aug)
DIETARY REQUIREMENTS
calcium supplementation during childhood, 251–255 (Jul)
DIGLYCERIDES
fat mobilization from adipose tissue, 166–170 (May)
DNA METHYLATION
DNA methylation, genomic silencing, and links to nutrition and cancer, 183–195 (Jun)
role of single nucleotide polymorphisms in folate metabolic pathway, 398–407 (Nov)

ELDERLY
aging, nutritional status, and infection in the developing world, 233–246 (Jul)
ELECTROLYTES
dietary reference intakes for group diets, 267–271 (Aug)
ENDOMETRIAL HYPERPLASIA
soy isofavones and endometrial hyperplasia, 392–397 (Nov)
ENDOTHELIUM DYSFUNCTION
mediterranean-style diet and metabolic syndrome, 312–314 (Sep)
END STAGE RENAL DISEASE
eating disorder in hemodialysis patient, 423–426 (Dec)
ENDURANCE EXERCISE
gender differences in amino acid use during endurance exercise, 419–422 (Dec)
ENERGY METABOLISM
physical disability and obesity, 321–331 (Oct)
EPIDEMIC
vitamin D deficiency in low-latitude regions of the U.S., 203–209 (Jun)
EPIDEMIOLOGY
human risk of carcinogenic heterocyclic amines from meat, 158–165 (May)
role of fruits and vegetables against radiation-induced cancer, 303–311 (Sep)
ETHANOL
disruption of methyl group metabolism by ethanol, 387–391 (Nov)
EXERCISE
affect of calcium and exercise on the growing skeleton, 361–373 (Nov)
good hydration for work and exercise performance, S14–S21 (Jun)
EXTRACELLULAR FLUID
hydration assessment techniques, S40–S54 (Jun)

FISH ADVISORIES
effects of fish consumption, 39–46 (Feb)
FISH CONSUMPTION
effects of fish consumption, 39–46 (Feb)
FLAVONOIDS
chocolate and cardiovascular health, 427–430 (Dec)
FLUID BALANCE
human water needs, S30–S39 (Jun)
FLUID HOMEOSTASIS
human water needs, S30–S39 (Jun)
FOLATE
disruption of methyl group metabolism by ethanol, 387–391 (Nov)
DNA methylation, genomic silencing, and links to nutrition and cancer, 183–195 (Jun)
role of single nucleotide polymorphisms in folate metabolic pathway, 398–407 (Nov)
FOLIC ACID
weekly iron-folic acid supplementation for women of reproductive age, S77–S80 (Dec)
FOOD GUIDANCE
nutrition trends of children's cookbooks, 347–351 (Oct)
FOOD LABEL
health claims for foods, 256–264 (Jul)
FOOD SAFETY
role of science, law, and politics in FDA's foods policy, 171–181 (May)
FREE FATTY ACIDS
fat mobilization from adipose tissue, 166–170 (May)
FREE WATER RESERVE
hydration status in the U.S. and Germany, S55–S62 (Jun)
FRUITS AND VEGETABLES
role of fruits and vegetables against radiation-induced cancer, 303–311 (Sep)

GABA
GAD2 on chromosome 10p12 for morbid obesity, 315–319 (Sep)
GAD2
GAD2 on chromosome 10p12 for morbid obesity, 315–319 (Sep)

GAD65
GAD2 on chromosome 10p12 for morbid obesity, 315–319 (Sep)
GENDER-SELECTIVE NUTRITIONAL RECOMMENDATIONS
gender differences in amino acid use during endurance exercise, 419–422 (Dec)
GENE EXPRESSION
DNA methylation, genomic silencing, and links to nutrition and cancer, 183–195 (Jun)
GLUTAMINE
role of glutamine in intensive care unit patients, 65–69 (Feb)
GLYCEMIC INDEX
role of diet in blood glucose response, 126–131 (Apr)
GLYCEMIC RESPONSE
role of diet in blood glucose response, 126–131 (Apr)
GLYCININ
allergenic proteins in soybean, 47–58 (Feb)
GLY M BD 30K
allergenic proteins in soybean, 47–58 (Feb)
GOVERNMENT/PRIVATE PARTNERSHIPS
government-industry partnership in weekly iron-folic acid supplementation, S116–S125 (Dec)
weekly iron-folic acid supplementation in reproductive age Filipino women, S109–S115 (Dec)
GROWTH
affect of calcium and exercise on the growing skeleton, 361–373 (Nov)

HEALTH
good hydration for day-to-day health, S6–S13 (Jun)
health claims for foods, 256–264 (Jul)
HEMODIALYSIS
eating disorder in hemodialysis patient, 423–426 (Dec)
HEMOGLOBIN CONCENTRATION
weekly iron and folic acid supplementation to reduce anemia among primary school children in Cambodia, S139–S145 (Dec)
HEPATIC GLYCOGEN
gluconeogenic organs and the small intestine, 356–360 (Oct)
HETEROCYCLIC AMINE
human risk of carcinogenic heterocyclic amines from meat, 158–165 (May)
HIV
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
HOMOCYSTEINE
homocysteine and osteoporotic fracture risk, 29–36 (Jan)
HORMONE-SENSITIVE
fat mobilization from adipose tissue, 166–170 (May)

HYDRATION
good hydration for day-to-day health, S6–S13 (Jun)
human water needs, S30–S39 (Jun)

IFP
human risk of carcinogenic heterocyclic amines from meat, 158–165 (May)
IMMUNE SENESCENCE
aging, nutritional status, and infection in the developing world, 233–246 (Jul)
IMMUNE SYSTEM
selenium accumulation in plant foods, 196–202 (Jun)
INDUSTRY EXPERIENCE
weekly iron-folic acid supplementation in the Philippines, S146–S151 (Dec)
INDUSTRY-GOVERNMENT PARTNERSHIP
weekly iron-folic acid supplementation in the Philippines, S146–S151 (Dec)
INFECTION
aging, nutritional status, and infection in the developing world, 233–246 (Jul)
INFLAMMATION
effect of weight loss on a stable biomarker of inflammation, 22–28 (Jan)
INSULIN RESISTANCE
role of glutamine in intensive care unit patients, 65–69 (Feb)
INTRACELLULAR FLUID
hydration assessment techniques, S40–S54 (Jun)
IRON
weekly iron-folic acid supplementation for women of reproductive age, S77–S80 (Dec)
IRON DEFICIENCY
importance of pre-pregnancy and pregnancy iron, S65–S76 (Dec)
IRON-FOLIC ACID
weekly iron-folic acid supplement delivered with social marketing to Cambodian women, S134–S138 (Dec)
weekly iron-folic acid supplementation in the Philippines, S146–S151 (Dec)
IRON NUTRITION
preventive iron-folic acid supplementation among reproductive age women in Western Pacific countries, S81–S86 (Dec)
IRON STATUS
importance of pre-pregnancy and pregnancy iron, S65–S76 (Dec)
ISCHEMIA
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
ISOFLAVONES
benefits of soybean foods, 272–283 (Aug)
soy isofavones and endometrial hyperplasia, 392–397 (Nov)

JAPAN
diversity in Japanese dietary guidelines, 37 (Jan)

KERATINOCYTES
biological role of vitamin C in keratinocytes, 81–90 (Mar)

LACTOGENESIS
maternal obesity and poor lactation, 352–355 (Oct)
LEPTIN
fructose intake and its relation to obesity, 133–157 (May)
LIPASE
fat mobilization from adipose tissue, 166–170 (May)
LIPID SIGNALING
vitamin K and sphingolipid metabolism, 111–121 (Apr)
LIVER
disruption of methyl group metabolism by ethanol, 387–391 (Nov)
LOW BIRTH WEIGHT
twin pregnancies and maternal nutrition update, 295–302 (Sep)
LOW LATITUDE REGIONS
vitamin D deficiency in low-latitude regions of the U.S., 203–209 (Jun)
LUNASIN
lunasin for cancer-prevention, 16–21 (Jan)
LUTEIN
dietary lutein and zeaxanthin, 59–64 (Feb)
obesity, lutein metabolism, and age-related macular degeneration, 9–15 (Jan)

MACULA
dietary lutein and zeaxanthin, 59–64 (Feb)
MACULAR DEGENERATION
dietary lutein and zeaxanthin, 59–64 (Feb)
obesity, lutein metabolism, and age-related macular degeneration, 9–15 (Jan)
MARKETING
weekly iron-folic acid supplementation in the Philippines, S146–S151 (Dec)
MASTITIS
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
MATERNAL OBESITY
maternal obesity and poor lactation, 352–355 (Oct)
MATERNAL RECALL
maternal recall of breastfeeding practice, 103–110 (Apr)
MATERNAL WEIGHT GAIN
twin pregnancies and maternal nutrition update, 295–302 (Sep)
MEDITERRANEAN-STYLE DIET
mediterranean-style diet and metabolic syndrome, 312–314 (Sep)

MENOPAUSE
soy isofavones and endometrial hyperplasia, 392–397 (Nov)
MERCURY
effects of fish consumption, 39–46 (Feb)
METABOLIC SYNDROME
dairy intake, obesity, and metabolic health in children and adolescents, 71–80 (Mar)
mediterranean-style diet and metabolic syndrome, 312–314 (Sep)
METHIONINE
disruption of methyl group metabolism by ethanol, 387–391 (Nov)
MILD DEHYDRATION
good hydration for prevention of chronic diseases, S2–S5 (Jun)
MILK
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
MINERALS
dietary reference intakes for group diets, 267–271 (Aug)
MONOGLYCERIDES
fat mobilization from adipose tissue, 166–170 (May)
MORBIDITY
good hydration for prevention of chronic diseases, S2–S5 (Jun)
MORBID OBESITY
GAD2 on chromosome 10p12 for morbid obesity, 315–319 (Sep)
MOTHER-TO-CHILD TRANSMISSION
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
MTHFR
role of single nucleotide polymorphisms in folate metabolic pathway, 398–407 (Nov)
homocysteine and osteoporotic fracture risk, 29–36 (Jan)
MULTISECTORAL COLLABORATION
weekly iron-folic acid supplements to prevent anemia among Cambodian women, S126–S133 (Dec)

NF-KB
biological role of vitamin C in keratinocytes, 81–90 (Mar)
NLEA
health claims for foods, 256–264 (Jul)
NOSOCOMIAL INFECTIONS
role of glutamine in intensive care unit patients, 65–69 (Feb)
NUTRITIONAL REQUIREMENTS
twin pregnancies and maternal nutrition update, 295–302 (Sep)

NUTRITIONAL SUPPORT
role of glutamine in intensive care unit patients, 65–69 (Feb)

OBESITY
dairy intake, obesity, and metabolic health in children and adolescents, 71–80 (Mar)
fructose intake and its relation to obesity, 133–157 (May)
obesity, lutein metabolism, and age-related macular degeneration, 9–15 (Jan)
physical disability and obesity, 321–331 (Oct)
OLIVE OIL PHENOLICS
olive oil and chemoprevention of colorectal cancer, 374–386 (Nov)
OMEGA-3 FATTY ACIDS
effects of fish consumption, 39–46 (Feb)
OSMOLALITY
hydration assessment techniques, S40–S54 (Jun)
OSTEOPOROSIS
homocysteine and osteoporotic fracture risk, 29–36 (Jan)
OSTEOPOROTIC FRACTURE
homocysteine and osteoporotic fracture risk, 29–36 (Jan)
OXIDATIVE STRESS
biological role of vitamin C in keratinocytes, 81–90 (Mar)

PARASITES
weekly iron and folic acid supplementation to reduce anemia among primary school children in Cambodia, S139–S145 (Dec)
PEPTIDES
lunasin for cancer-prevention, 16–21 (Jan)
benefits of soybean foods, 272–283 (Aug)
PERILIPIN
fat mobilization from adipose tissue, 166–170 (May)
PhIP
human risk of carcinogenic heterocyclic amines from meat, 158–165 (May)
PHYSICAL ACTIVITY
mediterranean-style diet and metabolic syndrome, 312–314 (Sep)
PHYSICAL DISABILITY
physical disability and obesity, 321–331 (Oct)
PLANNING DIETS
dietary reference intakes for group diets, 267–271 (Aug)
PLANT FOODS
selenium accumulation in plant foods, 196–202 (Jun)
POPULATION GROUPS
dietary reference intakes for group diets, 267–271 (Aug)
PREECLAMPSIA
role of vitamin D for prevention of preeclampsia, 225–232 (Jul)
PREGNANCY
role of vitamin D for prevention of preeclampsia, 225–232 (Jul)
PREMATURITY
twin pregnancies and maternal nutrition update, 295–302 (Sep)
PREVENTION
good hydration in the elderly, S22–S29 (Jun)
role of vitamin D for prevention of preeclampsia, 225–232 (Jul)
PREVENTIVE SUPPLEMENTATION
preventive iron-folic acid supplementation among reproductive age women in Western Pacific countries, S81–S86 (Dec)
PROSTATE CANCER
vitamin E and prostate cancer, 247–251 (Jul)
PUBERTY
calcium supplementation during childhood, 251–255 (Jul)

RADIATION-INDUCED CANCER
role of fruits and vegetables against radiation-induced cancer, 303–311 (Sep)
RADIATION-PROTECTIVE AGENTS
role of fruits and vegetables against radiation-induced cancer, 303–311 (Sep)
RELIABILITY
maternal recall of breastfeeding practice, 103–110 (Apr)
REPRODUCTIVE AGE WOMEN
community mobilization and social marketing to promote weekly iron-folic acid supplementation, S87–S94 (Dec)
government-industry partnership in weekly iron-folic acid supplementation, S116–S125 (Dec)
weekly iron-folic acid supplementation for women of reproductive age, S77–S80 (Dec)
weekly iron-folic acid supplementation of women of reproductive age, S152 (Dec)
weekly iron-folic acid supplementation in reproductive age Filipino women, S109–S115 (Dec)
weekly iron-folic acid supplementation in reproductive age Vietnamese women, S95–S108 (Dec)
RETINOID
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
RISK FACTORS
good hydration in the elderly, S22–S29 (Jun)

SACCHARIDES
role of saccharides on brain function and cognitive performance, 409–418 (Dec)

SCIENTIFIC EVIDENCE
FDA's genetically engineered foods policy, 210–223 (Jun)
SCIENTIFIC UNCERTAINTY
role of science, law, and politics in FDA's foods policy, 171–181 (May)
SECONDARY CONDITION
physical disability and obesity, 321–331 (Oct)
SEIZURE
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
SELENIUM
selenium accumulation in plant foods, 196–202 (Jun)
vitamin E and prostate cancer, 247–251 (Jul)
SINGLE NUCLEOTIDE POLYMORPHISMS
role of single nucleotide polymorphisms in folate metabolic pathway, 398–407 (Nov)
SMALL INTESTINE
gluconeogenic organs and the small intestine, 356–360 (Oct)
SOCIAL MARKETING
preventive iron-folic acid supplementation among reproductive age women in Western Pacific countries, S81–S86 (Dec)
weekly iron-folic acid supplement delivered with social marketing to Cambodian women, S134–S138 (Dec)
weekly iron-folic acid supplements to prevent anemia among Cambodian women, S126–S133 (Dec)
SOCIAL MOBILIZATION
community mobilization and social marketing to promote weekly iron-folic acid supplementation, S87–S94 (Dec)
weekly iron-folic acid supplementation in reproductive age Vietnamese women, S95–S108 (Dec)
SOCIO-ECONOMIC STATUS
weekly iron-folic acid supplement delivered with social marketing to Cambodian women, S134–S138 (Dec)
SOY
soy isofavones and endometrial hyperplasia, 392–397 (Nov)
lunasin for cancer-prevention, 16–21 (Jan)
SOYBEAN
allergenic proteins in soybean, 47–58 (Feb)
benefits of soybean foods, 272–283 (Aug)
lunasin for cancer-prevention, 16–21 (Jan)
SOY PRODUCTS
allergenic proteins in soybean, 47–58 (Feb)
SPHINGOLIPIDS
vitamin K and sphingolipid metabolism, 111–121 (Apr)
SPORT NUTRITION
gender differences in amino acid use during endurance exercise, 419–422 (Dec)
STROKE
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
STUNTING
weekly iron and folic acid supplementation to reduce anemia among primary school children in Cambodia, S139–S145 (Dec)
SUBSTANTIAL EQUIVALENCE
FDA's genetically engineered foods policy, 210–223 (Jun)
SUPPLEMENTATION
weekly iron-folic acid supplementation for women of reproductive age, S77–S80 (Dec)
SYNERGY
vitamin E and prostate cancer, 247–251 (Jul)
SYSTEMIC VASCULAR INFLAMMATION
mediterranean-style diet and metabolic syndrome, 312–314 (Sep)

TOTAL BODY WATER
hydration assessment techniques, S40–S54 (Jun)
TOTAL WATER INTAKE
hydration status in the U.S. and Germany, S55–S62 (Jun)
TRANSMETHYLATION
disruption of methyl group metabolism by ethanol, 387–391 (Nov)
TRAUMA
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
TRIGLYCERIDES
fat mobilization from adipose tissue, 166–170 (May)
fructose intake and its relation to obesity, 133–157 (May)
TWIN PREGNANCY
twin pregnancies and maternal nutrition update, 295–302 (Sep)

UNDERNUTRITION
aging, nutritional status, and infection in the developing world, 233–246 (Jul)
UNINTENDED EFFECTS
FDA's genetically engineered foods policy, 210–223 (Jun)
role of science, law, and politics in FDA's foods policy, 171–181 (May)

VALIDITY
maternal recall of breastfeeding practice, 103–110 (Apr)
VEGETARIAN
blood pressure regulation and vegetarian diets, 1–8 (Jan)
VIETNAM
community mobilization and social marketing to

promote weekly iron-folic acid supplementation, S87–S94 (Dec)
VITAMIN A
mother-to-child transmission of HIV-1 through breastfeeding, 332–346 (Oct)
VITAMIN C
biological role of vitamin C in keratinocytes, 81–90 (Mar)
VITAMIN D
role of vitamin D for prevention of preeclampsia, 225–232 (Jul)
vitamin D deficiency in low-latitude regions of the U.S., 203–209 (Jun)
VITAMIN E SUCCINATE
vitamin E and prostate cancer, 247–251 (Jul)
VITAMIN K
vitamin K and childhood bone health, 284–293 (Aug)
vitamin K and sphingolipid metabolism, 111–121 (Apr)
vitamin K influence on anticoagulant therapy, 91–100 (Mar)
VITAMINS
dietary reference intakes for group diets, 267–271 (Aug)

WARFARIN
vitamin K influence on anticoagulant therapy, 91–100 (Mar)
WASTING
weekly iron and folic acid supplementation to reduce anemia among primary school children in Cambodia, S139–S145 (Dec)
WEEKLY IRON-FOLIC ACID SUPPLEMENTATION
community mobilization and social marketing to promote weekly iron-folic acid supplementation, S87–S94 (Dec)
government-industry partnership in weekly iron-folic acid supplementation, S116–S125 (Dec)
preventive iron-folic acid supplementation among reproductive age women in Western Pacific countries, S81–S86 (Dec)
weekly iron-folic acid supplementation in reproductive age Filipino women, S109–S115 (Dec)
weekly iron-folic acid supplementation in reproductive age Vietnamese women, S95–S108 (Dec)
weekly iron-folic acid supplementation of women of reproductive age, S152 (Dec)
weekly iron-folic acid supplements to prevent anemia among Cambodian women, S126–S133 (Dec)
WEIGHT LOSS
effect of weight loss on a stable biomarker of inflammation, 22–28 (Jan)
WESTERN PACIFIC REGION
preventive iron-folic acid supplementation among reproductive age women in Western Pacific countries, S81–S86 (Dec)
WOMEN OF CHILDBEARING AGE
importance of pre-pregnancy and pregnancy iron, S65–S76 (Dec)

ZEAXANTHIN
dietary lutein and zeaxanthin, 59–64 (Feb)
obesity, lutein metabolism, and age-related macular degeneration, 9–15 (Jan)
ZINC
zinc supplementation: neuroprotective or neurotoxic, 122–125 (Apr)
